I would like more details of what impact this will have on my property. What are the plans for the access to the site? In the last few years our property has been designated as being on a floodplain due to the Daybrook running across the proposed development and the nearby River Leen. What actions will be put in place to prevent flooding and rising groundwater in the area?

If your response is seeking a change, do you consider it necessary to participate at the examination in person?

No, I do not wish to participate in person at the examination (1)
