4184 My husband and myself Mr & Mrs R Thatcher of [REDACTED] would like it to be known of our objection to use Hawksley Gardens and Finchley Close as access roads for the proposed new houses being built. The roads are too narrow for such traffic and as for emergency services to get through would be impossible. 4568 It will also interfere with bridal path which these access points will have to cross and is also known to be in the Dooms Day Book as one of the oldest paths going through Clifton, and for this alone should be preserved.

Thanking

You
