(Please read the following guidance note and indicate whether or not you feel the Plan is legally compliant)

A plan is considered legal when it complies with the various regulations that govern how it should be prepared. Key issues the Inspector will look at include:

- b) Whether community consultation was carried out in accordance with the Statement of Community Involvement;
- c) Whether the requirements of the relevant Regulations have been followed;
- d) Whether the appropriate notifications have been made;
- e) Whether a Sustainability Appraisal assessing social, environmental and economic factors has been completed and made public;
- f) Whether the document has regard to the Sustainable Community Strategy for the areas it covers; and
- g) Whether the requirements of the Duty to Cooperate have been met.

I strongly oppose this estate being built. It would result in an increase in the road traffic on already narrow roads leading up to the access to the area. this as already been proven by the need of residents parking scheme being put into operation. An alternative access would be needed to this site from Melbury Road, The children's play area and the wooded area would be exploited and vandalized.

If your response is seeking a change, do you consider it necessary to participate at the examination in person?
