4211 To whom it may concern,
I currently reside on the Western Boulevard site that has been proposed, and have done for over 30 years. I wondered why it has never been made permanent for the showmen, we have been part of this community all these years and we have no permanent yard, like that of the gypsy community in Hucknall. After all these years it would be very much appreciated if you would take my opinion into consideration, there are another seven families that also reside at this address.

Yours sincerely
Michael Thompson
