A number of my earlier-round comments and objections sent on your proposed local plan part 2, still stand on the grounds of matters re Clifton, fringes thereof and towards it; the proposed plan is unsound. I may need to introduce into the Examination forum my relevant correspondences e-mailed to e.g., inter alia, the Department for Education, and the Planning Inspectorate.

5119

Objections at this plan's: proposed Green Belt deletions re 3A (South) and 3B (South); proposal PA59 and its proposed open-ended use-classes.

5179

Rightful concerns (objections) - re: restoration and/or waste, A20 - about proposed policy MI2: not being so robust compared to MI3: .

5180

5181

Proposed south map: why is the Fairham Brook, between Clifton Lane and confluence with the River Trent, not a LWS ?  
also why isn't Long Plantation a LWS [Local Wildlife Site] ?  
and policy-unclear there continues to be an adverse set-up immediate a SSSI.

5182

Proposed policy or plan seems to omit on empty buildings and 'property guardians', and re naturalistic cemetery.  
RE6: , and LS2:b) Clifton Campus, need to respect their Green Belt fringe proximity.

Comment, proposals: DE2:1.e) , DE1:j) , IN2:2.b&c , noted...

Part A Future Notifications guidance, re Q5:  
submission of the proposed Local Plan Part 2 for Examination: yes;  
publication of the recommendations of the Inspector: yes.  
Response Form re Q12: Yes.

Mr. J. Potter .
