DEAR SIR -

FOR YEARS NOW IVE WONDERED WHY NO ONE HAS BUILT A TUBULAR ROUND TYPE BRIDGE INSTEAD OF ALWAYS OBLONG -

ALSO OUR CLIMATE RAIN & WIND -

SO I WOULD LIKE TO SEE A ROUND BRIDGE WALKING BIKES

INSIDE TUBULAR BRIDGE

HALF FOR

BIKES

FLOOR

WATER RIVER ETC

HALF FOR

WALKING OR RUNNING

5115

TWO ROUND BRIDGE
FOR PONDS

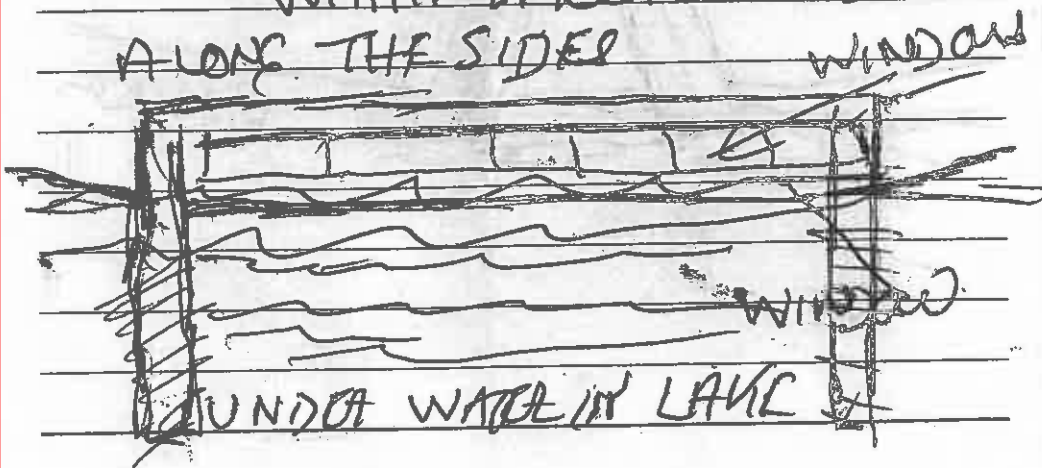

THIS TYPE OF BRIDGE STOPS YOU
GETTING WET STOP WINDY
BLOWING US ALL OVER THE PLACE
PEOPLE CAN WALK, RIDE
ON BIKES -

KEEPING DRY -
NOT LIKE ORDINARY BRIDGES
WET THROUGH -
LIGHTING ALONG THE ROOF
INSIDE -

LAKES & PONDS

THIS BRIDGE
CAN BE USED ON PONDS OR
LAKES

WITH SPECIAL WINDOWS
ALONG THE SIDES

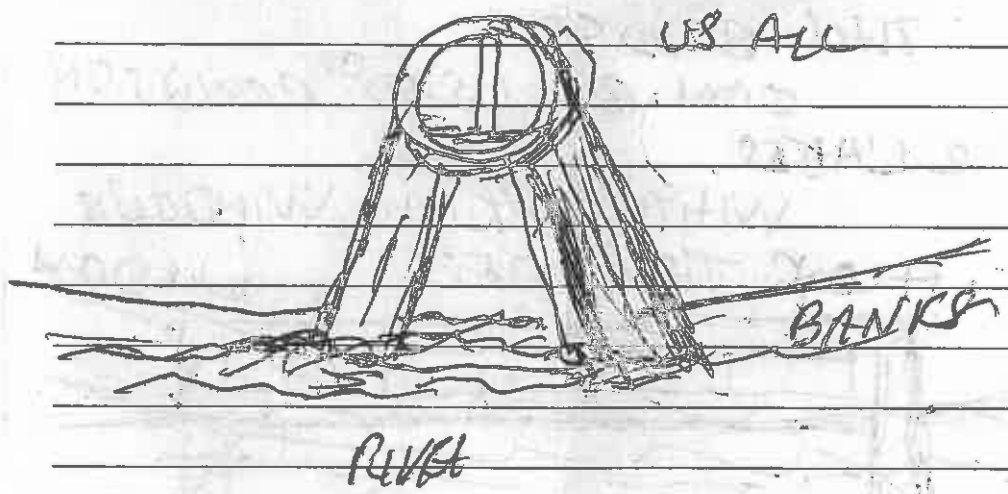

3 INSIDE
TO WALK ~~OVER~~ A BRIDGE
IN POURING RAIN, ETC
AND KEEP DRY

WILL BE VERY GOOD
FOR US

THIS WILL WORK -

IT WOULD BE LIGHTER
BETTER FOR
US ALL
